Dell Defense

Meeting Date: Noveber 10, 2018

Start Time: 11 AM

End Time: 12:30 PM

Attendance: Preetham Wilfred John, Nikita Kora, Ramitha Mallidi, Aakib ladhani, Dawood Moazzem.

Items Discussed

- Gave a demo to Dawood with the application we have created till now.
- Minimum Viable product excepted by Dawood has been developed.

Decisions Reached

- Try reducing redundant emails sent to notify the user.
- Try Mentioning the status of the application on the application's UI.
- Try mentioning the database details in the config file instead of getting it from the user.
- Send User stories to Dawood regarding who will be working on which part.
- Try creating a hash value of both the file content in local and database for comparing the files.
- Try getting the contents of the website where JavaScript is running and compare it with the actual file locally.
- Try modifying the tool to be platform independent(Linux, Windows).

Items for next meeting

- Modify the suggested changes.
- Give a demo to Dawood.
